

Anti-Stress frost protection

A non-toxic biodegradable coating that can minimize the damage of climate related stress, Anti-Stress provides a unique permeable film on the leaf surface and can reduce the effects of:

- Frost and freeze
- Rapid temperature variations
- Transplant shock
- Drying winds
- Water and drought stress
- Heat and sunburn

**CURRENTLY IN STOCK
AND AVAILABLE**

- Improves tolerance to frost by 2 – 2.5° C
- Does not interfere with photosynthesis
- Does not wash off during normal rainfall conditions
- Does not restrict plant growth

Application rate:

5 L/400 L water, spray at 400 L/ha
