

Anti-Stress

Frost protection

Don't miss out on frost protection,
pre-order your **Anti-stress** now

Due to the high demand for Anti-Stress experienced earlier this year and the current uncertainty in the supply chain, we are now giving you the option to pre-order our popular product in your fight against frost during spring 2022.

Anti-Stress is a non-toxic, biodegradable coating that can minimize the damage of climate related stress and it provides a unique permeable film on the leaf surface that can reduce the effects of:

- Frost and freeze
- Rapid temperature variations
- Transplant shock
- Drying winds
- Water and drought stress
- Heat and sunburn

- Improves tolerance to frost by 2 – 2.5° C
- Does not interfere with photosynthesis
- Does not wash off during normal rainfall conditions
- Does not restrict plant growth

Application Rate:
5 L/400 L water,
spray at 400 L/ha

Available in containers of 9.45 L at a
pre-order price of £184.50 + VAT & Delivery
Order deadline 29th October 2021
Non pre-order price is £202.95 + VAT & Delivery
whilst stock lasts
